

Beacon Hwb Community Declaration

Uniting for Equity, Empowerment, and Well-being

We, the partners, stakeholders, and members of the Beacon Hwb community, stand together in solidarity and shared purpose to create a future where **ethnic minority individuals and families are empowered, included, and thriving.**

Rooted in dignity, justice, and belonging, **Beacon Hwb** is a bold commitment to dismantling barriers and unlocking the potential within our communities. We affirm that every person—regardless of their background—deserves access to opportunities, mental well-being, and the power to shape their own future.

We declare that:

- **Youth are our future** and deserve mentorship, leadership, and skills to shape the world they want to live in.
- **Parents are the backbone of our families** and must be supported through inclusive spaces, resources, and guidance.
- **Mental health matters** and culturally sensitive, stigma-free support is a right, not a privilege.
- **Skills, training, and employment** are vital pathways to dignity, independence, and equity.
- **Community collaboration** is the key to lasting impact—and we will work with schools, local councils, members of our community, health bodies and businesses to drive change.

Our shared values:

- **Inclusivity:** We welcome all voices and champion diversity in leadership, services, and design.
- **Empowerment:** We believe in building capacity, confidence, and self-determination across generations.
- **Accountability:** We will measure our impact and evolve through community feedback and evidence.
- **Solidarity:** We commit to standing with one another, sharing our lived experiences, empowering each other and creating a safe space and advocating against inequality and injustice in all its forms.

Our commitment:

Together, we pledge to grow Beacon Hwb into a vibrant, safe, and healing space where **ethnic minority communities can access support, shape services, and lead change.**

We invite all who share this vision—residents, allies, partners, and champions—to walk with us. The time for equity is now. The change begins with us.

Signed,

The Beacon Hwb Collective
