11p more expensive than the Axminster visor. Works perfectly well. Ear defenders have fiddly slide mechanisms but once adjusted work very well.

We like...

- ▲ Very affordable face protection.
- ▲ Hinged visor lifts away from face when required.
- ▲ Ear defenders work very well and our comfy.

Also worth considering...

- ▼ Single height setting for visor.
- ▼ Defender sliding mechanism doesn't inspire.

Sliding mechanism fiddly to use but solid when set.

Single height setting only.

The pair work perfectly well together.
