

Employability: a review of the literature 2016- 2021 Dataset

Ways to search the dataset:

The dataset can be searched for keywords, dates, author names, journal names, etc.

Before searching, please click on the row number of the top row of the sheet to highlight the row. Select 'Data' then 'Filter'. This should make a little downward arrowhead appear at the right hand side of each column header.

The dataset is organised across three sheets (see the tabs at the bottom), which can be searched in three simple ways:

- + Each sheet can be searched using the 'Search sheet' box at the top of the sheet.
- + Each column can be searched by clicking at the top of the column to highlight the column then selecting 'Find & Select' then 'Find'
- + Each column can be filtered by clicking on the downward arrowhead on the right of the header cell of the column.
