

“Reforming education”

How to make a better education

Dr Tamas Kovacs

Definition

Cambridge Dictionary:

“the **process of teaching or learning, especially in a school or college, or the knowledge that you get from this**”

Education is a collaborative process between educator and learner.

Education in past

Education in present

Discussion

1. How does an ideal education system look like from the educator's perspective?
1. How does an ideal education system look like from the learner's perspective?

Key changes

1. Making education more than a profession: make it joy for educators and learners
1. Reducing stress for educators and learners
1. Change the quality assurance system
1. Bringing subjects close to learners - especially STEM - make it more STEAM!
1. Getting learners more involved in creation and let the children be children even in schools

Conclusions

Sociological systems determine the educational systems

Competition based approach to be combined / replaced with collaboration based approach
