

FIZZ DEICER

Description

FIZZ DEICER is a premium de-icing liquid ideal for use on vehicle windscreens. Economical for use on fleet vehicles. A blend of premium chemicals ensures rapid de-icing of windscreens and other surfaces. The proprietary formulation actively prevents the formation of new ice. Can also be used for de-icing locks and other metal parts.

Application

Available in a trigger spray it can be applied by spraying onto the iced surface. Can be used as a pretreatment to prevent the formation of ice.

Dilutions

This product is intended to be used as supplied.

Environmental

Dispose of chemicals in accordance with local environmental legislation.

Handling

Normal precautions should be taken for handling chemicals. Protective clothing, eye protection and gloves should be worn. For further details please refer to the safety data sheet.

Storage

Store in a cool, dry location between 5°C and 25°C. Protect from freezing. Avoid direct sunlight and extreme temperatures. Store the product sealed in the original container to avoid air exposure. Some products may settle during storage or transportation, ensure thorough mixing before use. See safety datasheet for list of incompatible materials and other relevant information.

Properties

Appearance: Blue Liquid

Density @ 20°C: 1.0-1.1

pH (concentrated): 6-8

Shelf Life

Storage: 24 months

Available in the following containers:

Case 6 x750ml
