

Grime Off pH Neutral

Description

A pH neutral version of our ever popular Grime Off, this product is designed for use through hot or cold pressure wash systems for efficient removal of oil, grease and general grime from vehicles, plant, offshore equipment etc., by garages, transport companies, bus fleets, maintenance & cleaning companies, building & construction companies, local authorities and oil companies both on and offshore. It can also, if required, be used in a bucket and mop situation for washing down of general plant and equipment, floors, walls, vehicles, tents and many different situations

Applications

Dilutions may vary depending on application. Use through a pressure wash system at 1-2%. Dilute up to 50-1 for use in a mop & bucket. Can also be applied through a foam lance giving a thick and stable foam. Apply at LOW PRESSURE starting from the BOTTOM and working upwards. Allow a few moments soak time. Agitate with a soft brush. Turn off detergent and rinse at HIGH PRESSURE starting at the TOP and working down.

Environmental

Dispose of chemicals in accordance with local environmental legislation. Local environment registrations.

Handling

Normal precautions should be taken for handling chemicals. Protective clothing, eye protection and gloves should be worn. For further details please refer to the safety data sheet.
