

# Aerosol Maintenance Oil

## Description

Aerosol Maintenance Oil is a high performance, multi-application fluid which is excellent for de-watering, penetrating, anti-corrosive and general lubricating properties. Suitable for lubricating moving parts on tools, hinges, wheels, chains, gears etc while protecting against corrosion. Has excellent penetrating properties to free stuck components due to corrosion such as valves, locks, gears etc.

## Application

To use as a penetrant or de-watering agent: spray directly on to surface, repeating if required to loosen parts.

To use as a protective coating: spray onto clean, dry surfaces and allow to dry to give a protective film.

## Environmental

Dispose of chemicals in accordance with local environmental legislation.

## Handling

Normal precautions should be taken for handling chemicals. Protective clothing, eye protection and gloves should be worn. For further details please refer to the safety data sheet.

## Storage

Store in a cool, dry location between 5°C and 25°C. Protect from freezing. Avoid direct sunlight and extreme temperatures. Store the product sealed in the original container. See safety datasheet for list of incompatible materials and other relevant information.

## Properties

Appearance: Aerosol- brown liquid

Density @ 20°C: ~0.74

Flash Point (Closed cup): -40°C

## Shelf Life

Storage: 24 months

## Available in the following containers

CASE x12
