

FISZYME BOE

VERSION 2.0 | JAN 2025 | FIS DATASHEET

Description

FISZYME BOE is a biological system to control odours and provide cleaning. Rather than masking odours with perfumes etc, FISZYME BOE breaks down the odour producing material. It is based on natural biological materials rather than harsh chemicals. Fiszyme BOE eliminates odours by attacking and degrading the organic source of the odour and is formulated to eliminate odours in garbage and waste storage areas, rest rooms, galleys etc.

Application

Use neat, spray onto odour producing materials and surfaces.

Dilutions

Use neat.

Environmental

Dispose of chemicals in accordance with local environmental legislation.

Handling

Normal precautions should be taken for handling chemicals. Protective clothing, eye protection and gloves should be worn. For further details please refer to the safety data sheet.

Storage

Store in a cool, dry location between 5°C and 25°C. Protect from freezing. Avoid direct sunlight and extreme temperatures. Store the product sealed in the original container to avoid air exposure. Some products may settle during storage or transportation, ensure thorough mixing before use. See safety datasheet for list of incompatible materials and other relevant information.

Properties

Appearance: Blue liquid

Density @ 20°C: 1.0-1.1

pH (concentrated): 6-8

Shelf Life

24 months

Available in the following containers:
