

M60

Lancashire Hill

Safety barrier replacement

August 2021

View of Lancashire Hill bridge showing the barriers that we'll be replacing.

About Highways England

Highways England operates, maintains and improves the motorways and major A-roads across the north-west. We use our expertise to deliver the Government's long-term objectives for our region's strategic road network.

Everything we do is focussed on making our roads in the north-west safer, meeting our customers' needs and enabling more reliable, free flowing journeys. And it's not just about people who drive on our roads.

We want to improve conditions for pedestrians, horse riders and cyclists and provide better links for those who use the hundreds of bus stops and many train stations across the region.

Lancashire Hill bridge in Stockport, crosses over the M60 motorway between junction 1 and junction 27. We'll be replacing the existing barrier with a new 1.8m high steel barrier along both sides of the bridge.

The new barrier will greatly improve safety for both cyclists and pedestrians using the bridge.

We plan to start work on 16 August and aim to complete these important safety improvements by mid-November 2021.

The work will take place in three phases. Our working hours and traffic management arrangements will be different in each phase. More details are included on the following pages.

Work and traffic management phases

Access for pedestrians and cyclists will be maintained along Lancashire Hill throughout. At times we will need to close the M60 and Lancashire Hill to motorists to ensure the safety of our workforce. Signed diversion routes will be in place for all closures. Our work will be carried out in several phases as outlined here:

Phase 1 – 16 August to 9 September

Work: Setting up temporary scaffolding around the entire bridge, and installing our enclosed work site area.

Traffic management: Overnight closures on the M60 and Lancashire Hill are required to carry out our work safely. The closures will be in place between **9pm and 5am** on the following dates:

- M60 clockwise between junctions 26 and 1 – from **21 to 31 August**
- M60 anti-clockwise between junctions 1 and 25 – from **1 to 9 September**
- Lancashire Hill between Great Egerton Street to Penny Lane – from **16 August to 10 September** (see diversion routes below)

Additionally, Lancashire Hill northbound will be closed during daytime hours, from **16 August to 9 September**.

Phase 2 – 10 September to 25 October

Work: Removal of the existing bridge barrier and replacing with a new 1.8m high steel barrier on both sides of the bridge.

Traffic management: 24-hour closure on both sides of Lancashire Hill between Great Egerton Street and Penny Lane.

Phase 3 – 26 October to 10 November

Work: Removal of the temporary scaffolding and enclosed work site areas from around the bridge.

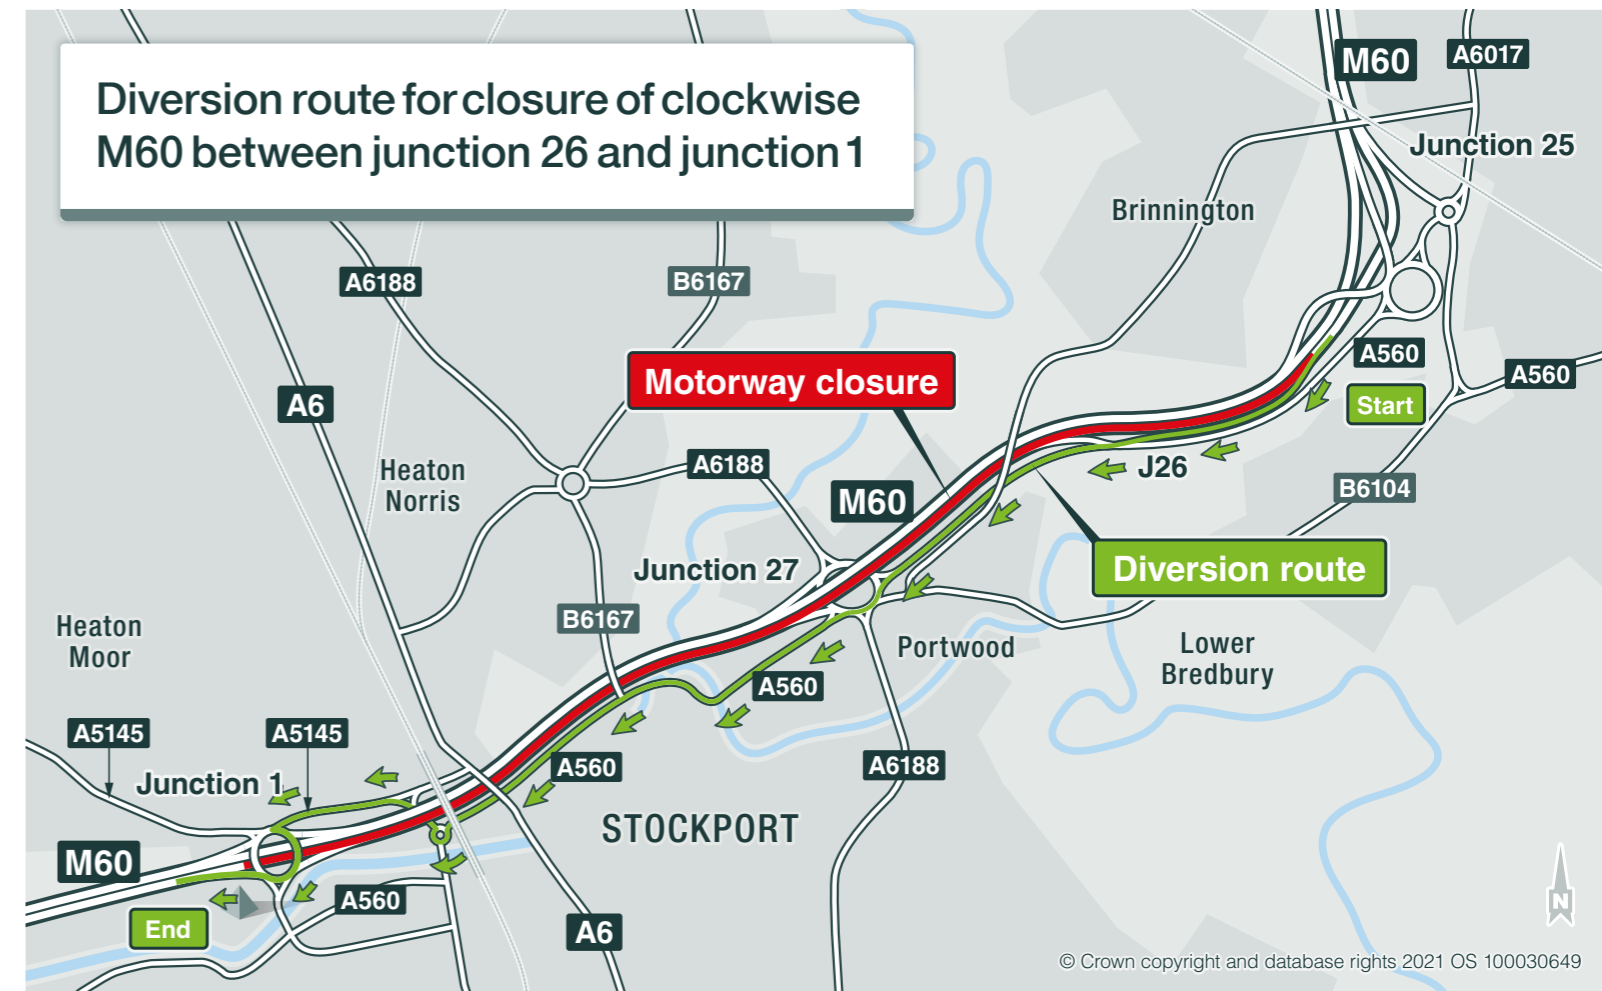

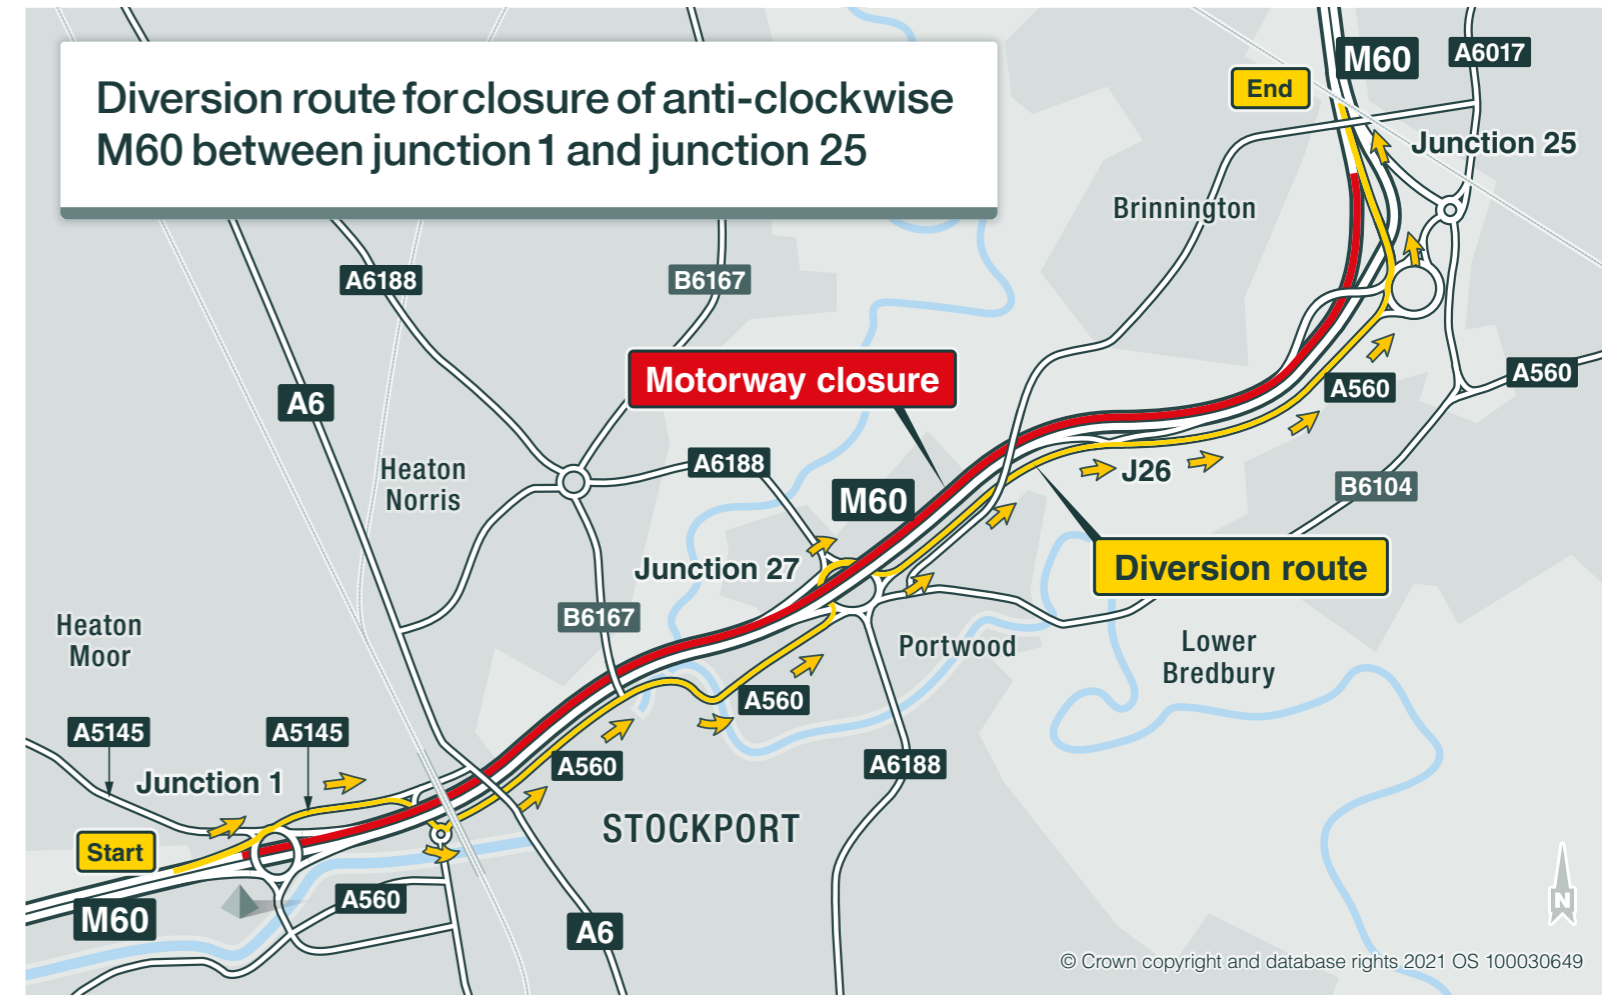

Traffic management: Overnight closures on the M60 and Lancashire Hill are required to carry out our work safely. The closures will be in place between **9pm and 5am** on the following dates:

- M60 clockwise between junctions 26 and 1 – from **26 October to 1 November**
- M60 anti-clockwise between junctions 1 and 25 – from **2 to 8 November**
- Lancashire Hill between Great Egerton Street to Penny Lane – from **26 October to 10 November** (see diversion routes below)

As in phase 1, Lancashire Hill northbound will be closed during daytime hours, from the **26 October to 10 November**.

Diversion routes for closures of the M60

If you need help accessing this or any other Highways England information, please call **0300 123 5000** and we will help you.

Bus services

During our work, some bus services in the area will be affected (see list opposite). Some bus stops on Lancashire Hill will close while our work take place. Signs will be displayed in advance, including information on the nearest available stop. Users of these services are advised to check their journey before travel. For more information please visit:

<https://tfgm.com/bus/timetables> or
<https://tfgm.com/public-transport/bus>

Bus services affected

- **203** – Manchester to Stockport
- **203N** – Manchester to Stockport (night service).
- **7** – Ashton to Stockport
- **7A** – Ashton to Stockport
- **7B** – Ashton to Stockport
