

Key	
PCM Link	
Sensitive Receptor/s within 15m of PCM Link	
Footpath/s within 15m of PCM Link	

Commentary
- The Haslingden bypass (A56) provides the link between the M65 and M66.
- There is no existing monitoring data located within close proximity of this PCM link.
- This link was shortened by JAQU following Phase 2.
- The sensitive receptors illustrated on the map are within the bounds of a junction and there is no public access within 15m of the PCM link. Therefore, there are no qualifying features present within 15m of the PCM link
