

PV Nature - Approved Independent Experts

Plan Vivo currently authorises the following Independent Experts to conduct project validations and verifications:

Name of Independent Expert	Contact	Geographic areas	Experience
Dimitris Poursanidis	dpoursanidis@iacm.forth.gr	Europe, MENA, Africa, SE Asia	Dimitris Poursanidis, Ph.D., is a marine scientist and Earth Observation specialist focusing on seascape ecology, biodiversity conservation, and blue carbon ecosystems. His work integrates field surveys, satellite remote sensing, and drone technologies to map, monitor, and restore coastal marine habitats, with particular emphasis on seagrass ecosystems.
Edward Mutwiri Mwikamba	edward.mwikamba@napier.ac.uk	Kenya	Edward is an ecologist with expertise in coastal and marine ecosystems, particularly seagrass conservation and community-based environmental monitoring. He has experience in ecological assessment, biodiversity research and evaluating conservation interventions that promote both environmental sustainability and local livelihoods.
