

Interim Issuance Request form for Plan Vivo projects

This template is to be used exclusively by projects certified against the V4 carbon standard for interim issuance requests, made between Annual Reporting cycles. This is applicable where a project has already achieved emission reductions (for ex-post PVCs) or planned emission reductions (for ex-ante PVCs), based on monitoring data submitted in its most recent annual report, but chose not to issue all as Plan Vivo Certificates at the time of annual report submission. A common reason for this is that the project did not have buyers for all of their potential PVCs at the point of submitting the last annual report, and therefore chose to minimise costs associated with issuance fees.

Ecosystem restoration and agroforestry by landless and smallholder farmers in Tigray (North Ethiopia)

Submitted by: Sil Lanckriet and Miro Jacob
 Date of submission: 29 01 2025
 Date of approval: 31/01/2025

Part A: Plan Vivo Certificate Interim Issuance Submission

A1 Contractual statement

- The issuance is based on the agroforestry activities reported in the Ethiotrees biannual report covering the 1 August 2023 - 31 July 2024 (see Section C3)¹. It is based on signed PES agreements with participants complying with all the minimum requirements stated.

A2 Most recent annual report or issuance request form

- Table 1 provides an overview of the PVCs issued to date and availability for future issuances, as stated in the latest annual report.

Table 1: PVCs issued and available to issue based on the most recent annual report.

| | | |
|------------------------------------|---------------------------------|---------|
| PVCs issued to date | | 288,563 |
| PVCs available for future issuance | Vintage: Aug. 2023 – July. 2024 | 33,443 |
| | Vintage 2 | NA |
| | Vintage n... | NA |

- Table 2 provides an overview of the PVCs allocated to the Plan Vivo buffer to date and availability for future buffer allocations, as stated in the latest annual report.

Table 2: PVCs allocated to the risk buffer and available for future allocation based on the most recent annual report

| | | |
|--|---------------------------------|--------|
| PVCs allocated to risk buffer to date | | 32,062 |
| PVCs available for future risk buffer allocation | Vintage: Aug. 2023 – July. 2024 | 4,106 |
| | Vintage 2 | |
| | Vintage n... | |

A3 Issuance request made in this report

Tables 3 and 4 provide an overview of the issuance request based on the agroforestry activities reported in the Ethiotrees biannual report covering the 1 August 2023 - 31 July 2024 (see Section C3)². These activities take place on lands already managed under signed PES agreements.

Table 3: PVCs requested for issuance.

| Vintage | PVCs requested for issuance | No. of PVCs allocated to buffer from ER's (tCO2) achieved this period |
|---------------------------------|-----------------------------|---|
| Vintage: Aug. 2023 – July. 2024 | 33,443 | 4,106 |
| Vintage 2 | NA | NA |
| Vintage n... | NA | NA |

Table 4: Allocation of issuance request (for Markit Registry)

| Buyer name, or Project name for unsold Stock | No. PVCs transacted | Registry ID (if available) or Project ID if destined for Unsold Stock | Tech spec(s) |
|--|---------------------|---|--------------|
| EthioTrees | 33,443 | ID 103000000013571 | Agroforestry |
| TOTAL | | | |

A4 New issuance levels after this report

- Table 5 provide a breakdown of the total number of PVCs issued to date and the remaining PVCs available for future issuance.

Table 5: PVCs issued and available to issue after issuance request in Section A3 is approved.

| | | |
|------------------------------------|--------------|---------|
| PVCs issued to date | | 322,006 |
| PVCs available for future issuance | Vintage 1 | NA |
| | Vintage 2 | NA |
| | Vintage n... | NA |

² <https://www.planvivo.org/Handlers/Download.ashx?IDMF=797adc5e-8eca-42b1-96ab-9bfa49e24da9>

- Table 6 provides a breakdown of the project's total buffer contributions to date and the remaining PVCs available for future risk buffer allocation.

Table 6: PVCs allocated to the risk buffer and available for future allocation after issuance request in Section A3 is approved

| | | |
|--|--------------|--------|
| PVCs allocated to risk buffer to date | | 36,168 |
| PVCs available for future risk buffer allocation | Vintage 1 | NA |
| | Vintage 2 | NA |
| | Vintage n... | NA |
