**DEEPOCEAN/SHELL: DON SAFETY ZONE
POST DECOMMISSIONING CLEARANCE / VERIFICATION TRAWL SWEEPS**

This is to certify that the MV “Westro” PD20 has carried out a post decommissioning seabed / trawl verification sweep within the Don 500 metre safety zone.

Using best endeavours and practice available, no oilfield related obstructions were encountered that will affect current and future fishing activity in the over-trawled area. To the best of our knowledge the swept areas have been successfully cleared of all equipment / infrastructure are considered safe to allow normal fishing operations to proceed.

NOTE: A snagging was encountered in position 61° 29.75'N, 001° 35.94'E, in an area where a large boulder had previously been identified. The gear was inspected and no damage was found however it is recommended that this location be avoided where possible when trawling.

Signed for on behalf of the Owners of MV “Westro” PD20

Philip Reid, Skipper
