**MORAY WEST OFFSHORE WINDFARM
VERIFICATION TRAWL SWEEPS ON DESIGNATED LOCATIONS ALONG OFFSHORE EXPORT CABLES (OEC)

IAC		Coordinates (WGS84)
N16-P18		58° 10.155’N, 002° 54.011’W

Note: These areas of interest were identified by MOWWL and SFF Representatives after reviewing the as-laid cable data. No other concerns were noted from the data review, including areas around the wind turbines, however this certificate only applies to the coordinates listed. Any other areas should be approached with caution.

Verification sweeps were completed with **squid fishing gear**. The trials were no closer than 250 metres from any of the wind turbines. To the best of our knowledge the swept areas noted above are considered safe to allow normal fishing operations to proceed.
