MERMAID SUBSEA SERVICES/SHELL: KINGFISHER 500 METRE SAFETY ZONE POST DECOMMISSIONING CLEARANCE / VERIFICATION TRAWL SWEEPS

This is to certify that the MV "Fruitful Harvest" PD50 has carried out a post decommissioning sea bed / trawl verification sweep of the Kingfisher 500 metre safety zone **not including** the central wellhead location and surrounding drill cuttings:

Kingfisher Drill Cuttings Extents	WGS84	
	Latitude (N)	Longitude (E)
North	58° 46.309'	01° 29.507'
East	58° 46.292'	01° 29.537'
South	58° 46.244'	01° 29.392'
West	58° 46.274'	01° 29.336'

This area should continue to be avoided

Using best endeavours and practice available, no oilfield related obstructions were encountered in the remainder of the 500 metre safety zone and nearby section of rock dumped pipeline (from 58° 46.3423'N, 001° 28.6741'E to 58° 46.3237'N, 001° 28.8188'E). To the best of our knowledge the swept areas have been successfully cleared of all equipment / infrastructure and at the time of these trials the swept areas were found to be safe for normal fishing operations.

Signed for on behalf of the Owners of MV "Fruitful Harvest" PD50
