SHEET 5

DEPTHS IN METRES

SCALE 1:200 000 at lat 58°00'

Depths are in metres and are reduced to Chart Datum, which is approximately the level of Lowest Astronomical Tide. Positions are referred to WGS84 Datum. Navigational marks: IALA Maritime Buoyage System - Region A (Red to port). Projection: Mercator. Sources: See Source Diagram. Depths in upright figures are from old or small scale sources of doubtful reliability.

OIL AND GAS FIELDS

Production platforms, and associated structures, including tanker moorings, storage tankers and platforms on pipelines, generally exhibit MoQ lights, aircraft obstruction lights, and fog signals. (Transit) cables, including cables, are prohibited within 500 metres of all such structures. Submarine cables and pipelines. Mooring are advised not to anchor or trail in the vicinity of submarine cables and pipelines. Pipelines are not always buried and their presence may significantly reduce the shown depth. This

20 Nautical Miles

DEVELOPMENT AREAS

The limits of Development Areas are shown around certain oil and gas fields. Surface vessels, surface craft and divers may be engaged in unloading and servicing installations within these areas. Other vessels are strongly advised to keep outside the charted limits. Submarine cables
