2025 Winter Gathering, Buxton

The 2025 Winter Gathering was held on Friday 12 December in Buxton, Derbyshire, initially in the Pavilion Gardens and later in the adjacent Buxton Opera House. A capacity attendance of 200 Liverymen and guests attended, with a substantial waiting list.

Talk, 'Taking The Waters'

Richard Groome, PM Engineer and Chairman of the Brigantes Winter Gathering Committee, introduced Mike Higginbotham, our speaker. Mike has lectured in social and architectural history for the Universities of Nottingham, Birmingham and Keele. He is an Arts Society (formerly NADFAS) lecturer and former tutor-guide for the Matlock Travel Society.

Mike took us on a virtual tour down the ages of the country's many spa towns, their hydros and their treatments, from Roman to Victorian to the present day.

Such was the belief in the health-giving properties of their magical waters that the discovery of just a single spring could be the catalyst for huge economic transformation.

As Mike explained, while some spas have seen better times, others like Bath, Buxton and Harrogate are popular visitor destinations and continue to thrive.

**** STOP PRESS ****

Our Tribal Chieftain's second book was published by The History Press on 29 January. Much of the action takes place in Brigantia.

FIRST KINGS R. A. J. Waddingham ISBN 9781837050550; RRP £22.99 Hardback, Published 29 January 2026.

It is available slightly cheaper on Amazon - but ordering from a local book shop encourages them to stock the book.

After decades of devastating raids, Viking armies first overwintered in England in 850. In doing so, they opened a century of conflict and reaching ambition.

In Norway, Harald Fairhair rose from a regional chieftain to become its first king, while in England Alfred the Great preserved Wessex from conquest and laid the foundations for unity. His successors extended that vision, leading to the creation of a single English kingdom after Athelstan's decisive victory at Brunanburh in 937.

Meanwhile, the struggle for Norway's throne erupted among Harald's heirs, with Eric Bloodaxe briefly claiming the Crown before being overthrown by his younger brother Hakon. Upon fleeing to Britain, Eric was allowed the York throne by King Edred, which he retained until his violent death in Cumbria in 954. There would be no more kings in York.

This turbulent century saw kings rise and fall; it saw rivalry, betrayal and open conflict. Out of the chaos of shifting allegiances and warfare, England and Norway began to take shape as the countries we know today.
