

Setting up your payment processing:

Section One - Payment processing with Digjack

Section Two - Connecting to Stripe

Payment processing with Digjack

Payment processing with Digjack

All **Payment** transactions on Digjack are done using **Stripe** – the world’s leading software platform for internet business transactions. This allows our sellers a secure way of receiving payment from buyers using most major card types.

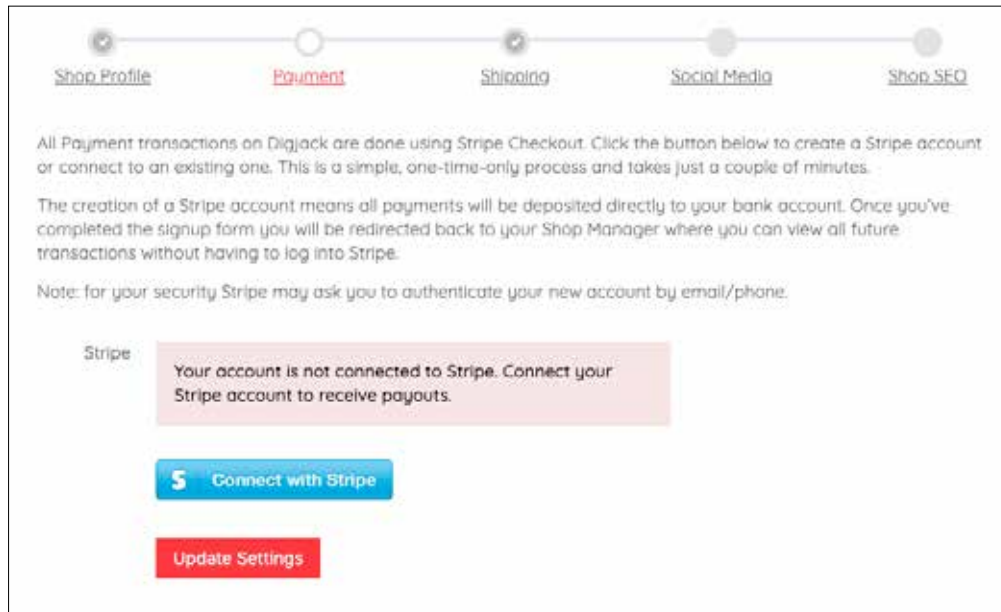

If you have a **Stripe** account you can connect to it through your Digjack **Shop Manager** and **Shop Settings, Payment**.

If you don’t already have an account you’ll be requested to create one. This is a simple, one-time-only process done through your **Shop Manager** and takes just a couple of minutes. After that, you’ll be ready to receive payments!

Connecting to STRIPE

Connecting to Stripe

The screenshot shows a navigation bar with five items: Shop Profile, Payment (highlighted in red), Shipping, Social Media, and Shop SEO. Below the navigation bar, there is a progress indicator with five circles, where the second circle (Payment) is filled. The main content area contains the following text:

All Payment transactions on Digjack are done using Stripe Checkout. Click the button below to create a Stripe account or connect to an existing one. This is a simple, one-time-only process and takes just a couple of minutes.

The creation of a Stripe account means all payments will be deposited directly to your bank account. Once you've completed the signup form you will be redirected back to your Shop Manager where you can view all future transactions without having to log into Stripe.

Note: for your security Stripe may ask you to authenticate your new account by email/phone.

Stripe

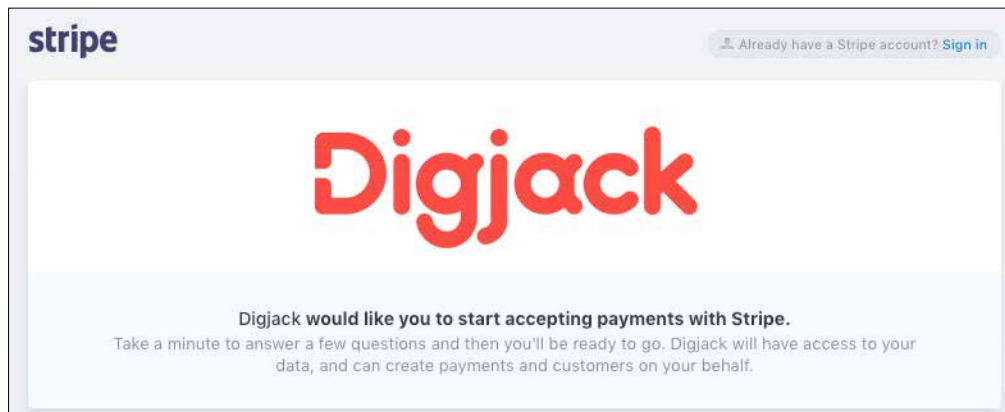

Your account is not connected to Stripe. Connect your Stripe account to receive payouts.

[Connect with Stripe](#)

[Update Settings](#)

Start by going to your **Shop Manager** and selecting **Shop Settings** then **Payment**. Click on **Connect with Stripe** and a new screen will appear.

If you already have a **Stripe** account simply sign-in (click on the button top/right). Otherwise follow the on-screen instructions to set-up a new account. The following pages show a summary of the single-page sign-up form.

The screenshot shows the Stripe sign-in screen. At the top left is the Stripe logo. At the top right is a link: "Already have a Stripe account? [Sign in](#)". The main content area features the Digjack logo in large red text. Below the logo, there is a light blue box containing the following text:

Digjack would like you to start accepting payments with Stripe.

Take a minute to answer a few questions and then you'll be ready to go. Digjack will have access to your data, and can create payments and customers on your behalf.

Connecting to Stripe

Activate your account
We need to learn more about you and your business before you can process payments on Stripe. Except where noted below, the information you provide will only be visible to the account owner and administrators.

Credit card statement details deals with reference and contact info.

Bank details allows you to set your preferred currency and the bank account you'd like use.

Connecting to Stripe

Direct debit request
I, the account holder, am the only person required to authorise debits. I request and authorise Stripe to transfer to and from this bank account through the Bankers' Automated Clearing Services (BACS) according to the [Services Agreement](#).

Two-step authentication Required
Strengthen your account's security by protecting it with either your phone or Google Authenticator in addition to your password. This will help ensure that no one else can log in to your account.

Almost done! Save your Stripe account.

Email

Password

You'll be taken back to Digjack (digjack.com) right away.

By submitting this form, you agree to the [Connected Account Agreement](#), to receiving autodialed text messages from Stripe, and you certify that the information provided is complete and correct.

Finally, authenticate your account and set your password.

Once you've completed these last two items simply click on the blue **Authorise** button and your account will be created and you'll be returned to your **Shop Manager, Shop Settings, Payment** – all ready for selling!
