

PATHFINDER SPECIAL

Based on the famous Austin Seven O.H.V. racing car which won numerous awards in British track and road events before the war, the Pathfinder Special is a model to delight the heart of every boy. Safe, comfortable and easily handled this little car will be a treasured possession for many happy years.

"JUST LIKE FATHER'S CAR"
The **AUSTIN JUNIOR FORTY**

IN producing the Junior Forty the Austin Company has provided a fascinating model car that will give enthusiastic pleasure both to boys and girls and supply an endless source of healthy, outdoor enjoyment. What a thrill for "Junior" to drive a car just like father's, to polish it even better than he does, to take the wheels off or pump up the tyres, to lift up the bonnet and examine the "engine," and best of all, to show it off to admiring friends and relatives. Here is a "real" car indeed, and children, like father, will be able to say:—

AUSTIN—You can depend on it!

J40 ROADSTER

The J40 Roadster will appeal to both boys and girls for its low sweeping line, its brilliant finish, and its very "real" appearance. Children will be thrilled to possess such a model, which will induce a satisfying sense of ownership and provide valuable experience in road usage that will benefit them for the remainder of their lives.

BUILT BY DISABLED MINERS IN SOUTH WALES

Austin J40 cars are made in a specially constructed factory at Bargoed in South Wales. Here, in good conditions with the guidance of an experienced rehabilitation officer and under the supervision of a doctor, disabled Welsh miners are able to find a new interest in life and do a job of work that is both useful and congenial. There are employment facilities at this factory for 250 men.
