

Want your business to save money and become greener?

Investors in the Environment (iie) is a national accreditation scheme. It is designed to help organisations save money, reduce their impact on the environment, and get promoted for their green credentials. Member businesses receive tailored support and expert advice. We offer templates, toolkits, networking opportunities and training.

What are the benefits of joining?

**Save money
and resources**

**Achieve a stamp
of accreditation**

**Get promoted for
green credentials**

**Corporate Social
Responsibility**

**Enjoy business
networking**

**Improve staff
engagement**

Bronze

from £199 + VAT annually

Silver

from £249 + VAT annually

Green

from £349 + VAT annually

How does it work?

The step-by-step approach within each accreditation level allows your organisation to set achievable targets and establish a pathway of continual improvement. There are three low-cost accreditation levels that your organisation can work towards.

This means that there is a suitable level for every company wishing to go green.

Who is it for?

iiE accreditation is suitable for organisations of all types and sizes – from sole traders through to large multi-site employers and your organisation doesn't need to have any prior experience or environmental expertise in-house.

“It's important to make continual eco improvements through iiE for many reasons. The University and technology are constantly changing. To keep up with these changes and, better still, to lead the way in innovation, continual improvement is a must.”

- The University of Northampton
