CREATING SUSTAINABLE PLACES

Eco Charter

**The perfect way for schools to
engage and evidence Eco Learning.**

What is the Eco Charter?

This is a specially designed programme for schools which is linked to the National Sustainable Schools Framework and allows you to show both progression in becoming a sustainable school (part of Ofsted - Education for Sustainable Development) and your contribution towards the International Sustainable Development Goals.

Eco Charter

How does it work?

There are 10 themes to the charter that can be worked on simultaneously, with each one being assessed and certificated individually. Once completed you can apply to be accredited at any time so that the students involved can celebrate their achievements.

To gain the accreditation in your chosen theme we would expect to see an embedded ethos across the school so that good practice continues whilst you work on a new area. Once you have been accredited in 5 themes you can apply to fly the Eco Flag or display your Eco Plaque!

How we support you!

- Termly twilight sessions
- Termly newsletters
- The loan of resources to support your student engagement
- Links to local & national providers
- Curriculum and Ofsted requirement links
- In school targeted workshops
- CPD opportunities
- Eco Awards celebration event
- All certificates & awards

If you would like to know more details, or arrange a school visit, please contact our Education Coordinator at education@pect.org.uk or visit our website www.pect.org.uk
