Points of Interest

The Church of St Benedict in Glinton is considered to be one of the finest needle spires in England. An interesting feature of the church is the gargoyles on the south side of the roof. Three show their faces, however, take a close look at the fourth. The story is told that, the mediaeval stonemason was paid according to the items' worth as assessed by the patron. The mason failed to be paid what he considered to be a fair value and decided to show his displeasure.
