

MAX KCa + Bio

Brand Name	MAX KCa + Bio
Product Code	C046
Purpose	A fluid foliar fertiliser developed for crops requiring an additional dose of Potassium, Calcium, micro-nutrients and growth Biostimulants. Manufactured with proprietary surfactant blends that give improved “rain-fastness” and penetration.
Description	A Soluble fertiliser containing: Potassium, Calcium, Magnesium, Boron, Cobalt, Copper, Iron, Manganese, Molybdenum, Zinc and Biostimulants.
Standard Pack Sizes	1lt, 5lt, 10lt, 800lt IBC.

Chemical Composition

Formulation (g/l)	K ₂ O 316. CaO 61, MgO 9. B 21, Co (EDTA) 0.01, Cu (EDTA) 0.75, Fe (EDTA) 2.42, Mn 0.75, Mo 0.01, Zn (EDTA) 0.75, Biostimulants 3.4.
--------------------------	---

Physical Properties

Physical State	Viscous Suspo-emulsion
Colour	Brown
pH	9.0 – 10.0
Density	1.47 - 1.50

Crops Recommendations

Foliar Applications	<p>2 - 2.5 ml per litre of water applied, please see label for more details. Shake bottle well before use. Half fill spray tank with water and begin agitation. Empty the required quantity into the spray tank, mix until dissolved or dispersed and add the balance of the water. Ensure agitation is maintained throughout the spraying operation. Do not allow the spray tank agitation to stop whilst product remains in the tank.</p> <p>Foliar Fix Max KCa + Bio is tank mixable with most spray applied chemicals. Read all labels carefully and adhere to the instructions for use and advice regarding whether or not the products should be co-applied. If mixing products in the spray tank, add product first. Many variables outside the control of Safagrow can influence the performance of co-applied products and therefore co-application is entirely at the risk of the end user.</p>
----------------------------	---

Storage

Protect from frost. Store between 5°C and 35°C. Do not store in direct sunlight. Keep away from food, drink and animal feed. Keep out of reach of children.
