

MAX NPK + Bio

Brand Name	MAX NPK + Bio
Product Code	C056
Purpose	A fluid foliar fertiliser [20-20-20] developed with nutrients, chelated trace elements and growth Biostimulants to improve plant growth and resilience. Manufactured with proprietary surfactant blends that give improved “rain-fastness” and penetration.
Description	A Soluble NPK fertiliser containing: Nitrogen, Phosphorus, Potassium, Magnesium, Boron, Cobalt, Copper, Iron, Manganese, Molybdenum, Zinc and Seaweed Extract.
Standard Pack Sizes	1lt, 5lt, 10lt, 800lt IBC.

Chemical Composition

Formulation (g/l)	N 200, P ₂ O ₅ 200, K ₂ O 200 MgO 15 B 0.32, Co (EDTA) 0.01, Cu (EDTA) 0.75, Fe (EDTA) 2.42, Mn 0.75, Mo 0.01, Zn (EDTA) 0.75, Seaweed Extract 10.
--------------------------	---

Physical Properties

Physical State	Viscous Suspo-emulsion
Colour	Blue/Green
pH	8.0 – 10.0
Density	1.53 - 1.58

Crops Recommendations

Foliar Applications	<p>2 - 2.5 ml per litre of water applied, please see label for more details. Shake bottle well before use. Half fill spray tank with water and begin agitation. Empty the required quantity into the spray tank, mix until dissolved or dispersed and add the balance of the water. Ensure agitation is maintained throughout the spraying operation. Do not allow the spray tank agitation to stop whilst product remains in the tank.</p> <p>Foliar Fix MAX NPK + Bio is tank mixable with most spray applied chemicals. Read all labels carefully and adhere to the instructions for use and advice regarding whether or not the products should be co-applied. If mixing products in the spray tank, add product first. Many variables outside the control of Safagrow can influence the performance of co-applied products and therefore co-application is entirely at the risk of the end user.</p>
