

SLAM HORNET – 110V EMERGENCY WORKLIGHT

Emergency back-up worklights for hazardous areas

The SLAM Hornet - Emergency is designed, built and certified as a fully portable worklight yet is also a maintained emergency back-up light. It has passed rigorous testing including severe drop tests and impact tests. It use 40W & 18W compact fluorescent lamps as a light source making it highly effective in daily operations. If there is a power failure, the integral electronics switch over in milliseconds to the back-up system which powers the 18W lamp for a minimum of 1 hour.

SPECIFICATION

- **LIGHT OUTPUT**
Normal - 4700 Lumens (180°)
Emergency – 400 lumens (180°)
- **LIGHT SOURCE**
1 x 40W, 1 x 18W Fluorescent lamp
- **CABLE LENGTH**
10m
- **DIMENSIONS**
1005mm x 115mm Ø
- **ATTACHMENT**
Adjustable hanging straps

Key Features
