

3.4m (11ft) Wide – Blast-Resistant Modules

Description

At Centurion Accommodation & Modular we have a standard range of 3.4m (11ft) wide Blast-Resistant Modules featuring 2-hour fire resistance (H120) and generously sized windows for natural daylight within the units.

Engineered to our industry-leading safety specifications, each of our Blast-Resistant Modules adheres to API RP 752 and 753 and applies a proven, **successfully blast tested design**. In addition, all our modules meet the criteria for a low or medium response rating (low or medium damage) by the American Society of Civil Engineers to provide proven protection and increase peace of mind.

Features and benefits

- Steel floor, wall and ceiling members covered with minimum 10-gauge steel panels
- Two steel-reinforced doors
- ISO lift and tie down points at each corner
- 9 mm thick Painted Calcium Silicate Board (CSB) for wall lining and ceiling panels
- PVC vinyl flooring sheet
- Shielded fluorescent overhead lighting
- Fire-rated (2 hours, H120) insulation
- Standard RJ-45 or RJ-11 phone and Ethernet jacks
- One multi-cable transit for incoming electrical and communication services
- HVAC system suitable for use up to 52°C
- Smoke detectors
- ABC fire extinguishers
- Exit signs with emergency lighting
- Blast and fire-rated windows

Blast and Fire Ratings

- **Blast rating: 10 psi at 200 MS**
- **Fire rating: 2 hours (H120)**
