

ATEX Peltor 3M Headset & PTT

Peltor Headset - MT7H79P3E-50

CONTENTS

- Peltor Headset with hard hat attachment (hard hat not included)
- Push to talk adapter – PMLN 6368

Peltor's EEx-approved headsets are designed to ensure clear, reliable communication in extremely noisy environments, while providing necessary hearing protection for the situation. The hardhat clip-in model mounts on to most hardhats and helmets on the market.

SPECIFICATION

- EEX-approved headsets according to ATEX class EEX ib IIC T4
- High-attenuating shells with optimised acoustic design and excellent space for the ears for the best possible sound quality and comfort
- Microphone with effective noise compensation for clear and reliable communication
- Integrated microphone boom with Quick Positioning for easy handling
- Soft, wide, foam and fluid-filled ear cushions and individually sprung headband wires of stainless sprung steel provide an even and consistent distribution of pressure around the ears for the best possible comfort
- Beam-mounted earphones that provide the least possible resonance and distortion for excellent sound reproduction even in very high-noise environments

The adapter with Push to Talk (PTT) function between the headset and the communication radio is crucial for communication. This means that you must always have the adapter within reach and yet out of the way. The adapter needs to tolerate rough treatment and harsh climates, day after day.

- The PTT button is logically positioned and easy to use, even with thick gloves on
- A sturdy clamp on the back can be twisted 360 degrees for easy, flexible use in all situations
- The whole adapter, and particularly the contact, is designed to keep moisture away from the electronics
