

CAPE 31 GOLD CUP 2026

EVENT INFORMATION

Due to Les Voiles de Saint-Tropez, if you are taking part in **Round 5 in Hyères**, we recommend storing your Cape 31 in **La Seyne-sur-Mer or Hyères** and then sailing to Saint-Tropez just before the start of the Gold Cup (**33 nautical miles**). Your empty trailer can be transported by road (**approximately 1 hour from Hyères**).

If you are bringing your **Cape 31 specifically for the Gold Cup**, Monaco Marine has scheduled **6 launching slots on October 8 and 6 slots on October 9**.

Arman Shipyard in Saint-Tropez will probably also be able to handle launching and hauling operations. However, no specific agreement has been made with them at this stage, so you will need to contact them directly to arrange and confirm any operations.

Berthing is included in the Gold Cup entry fee from October 11 to 19, with the boats moored in front of the Harbour Master's Office.

Throughout the event, **trailers can be stored in the port car park**. A **dedicated truck parking area** will also be available in the port car park from **October 11** (see map).

If you experience any difficulties organizing your boat logistics, please feel free to contact **Adrien by email or WhatsApp at +33 6 49 56 14 54**.
