Measurement Notice #2

Published: 11 October @17:45

Order of Measurement Days

Monday Boat Weighing

The boats selected for weighing will be weighed and inspected in order they were selected:

Stig
Firstings
Terrible Joy
Eker Süzme
Give Me Five

Due to the crane being available for lifting from 09:00 the operation will begin at 09:00, however Stig and Firstings are encouraged to arrive at the weighing area at 08:30 to start preparation.

The intention is to inspect these boats before they have been lifted to ensure all loose gear etc has been removed. These two boats will then be lifted onto the two cradles available to 'dry'. The measurers will then inspect the keels for both these boats and a weight for each will be taken before they are put back in the water.

The same procedure will then be done for Terrible Joy, Eker Suzme and Give Me Five with one boat being put back in the water and the next boat lifted ashore to create a 'production line'.

The Measurers will endeavour to give updates of progress to the main WhatsApp Group to give warning to the next boats to manoeuvre to the weighing area.

If these five boats arrive with their safety equipment described below, they can have this checked at the same time before being lifted to alleviate the need for their appointment on Tuesday.

Monday Sail Measurement

Each boat must bring its two newest spinnakers (based on the date on the World Sailing IHC/ ORC/ Other Certification mark) to the Sail Measurement Venue. The default location for Sail Measurement is Salle Jean-Despas, 16 Bd Vasserot (unless an alternative location nearer the port can be secured). The running order is:

Give Me Five (15:00)

Heat (15:15)

Stig (15:45)

Outrage by Sériès (16:00)

Kalantis (16:15)

Hatari (16:30)

Eker Süzme (16:45)

Motions (17:00)

Jubilee (17:15)

Black Battalion (17:30)

Lil Desna (17:45)

Stella Maris (18:00)

Gecko (18:30)

Tuesday Sail Measurement Continued

K-Force Jr (09:00)

La Pericolosa (09:15)

Haltbtroken 3.1 (09:30)

Akheilios (12:15)

Chocolate (12:30)

General Equipment Inspection

The following is the schedule for general safety equipment checks which will take place at your allocated berth:

The following will be inspected during these checks

- A PFD for each member of crew stating that they meet the ISO 12402-5 standard (50N) or equivalent.
- 2 x Fire Extinguishers
- A Lifebuoy with a whistle and drogue.
- A safety knife on deck in its storage location used during racing, it shall be clear of significant rust (pitting).
- 2 x 9 litre buckets each with a lanyard.
- Anchor and chain, the combined weight must be at least 8kg.

The Running order is:
