

## English Heritage Car Parking Charges

English Heritage is a charity that cares for over 400 historic buildings, monuments and sites - from world-famous prehistoric sites to grand medieval castles, from Roman forts on the edges of the empire to a Cold War bunker. Through these, we bring the story of England to life for over 10 million people each year.

The generous support of our visitors and members plays a vital role in protecting and caring for all our sites. In order to raise additional funds to continue safeguarding our heritage for future generations, we have introduced some changes to our car parking policy. The car parking charges at the sites listed below will help us raise crucial funds as well as, contributing towards our future financial sustainability.

As a CSSC customer you are able to claim free parking. If you'd like to take advantage of this offer, please visit the admissions desk upon arrival at the below sites. You will then be issued with a free parking voucher that will need to be displayed on your car dashboard for the duration of your visit.
