Reloadable gift cards

A quick and easy way to earn cashback on regular spending

If you regularly shop at a particular retailer, reloadable gift cards are an easy way to make savings.

You can use a reloadable gift card as many times as you like to pay for your shopping and earn cashback at the same time.

Through your My Savings+ account, you can check the balance of your cards, top them up with an amount of your choice and even set up automatic monthly loads by direct debit so you can continue to earn cashback on your regular spending!

How to order and use your card

1. Simply order a reloadable gift card from a retailer of your choice through the platform with a minimum load value of £10. Cashback is automatically credited to your account as a percentage of the value loaded onto the card.
2. Once you receive the card in the post, you'll need to activate it through your My Savings+ account before you use it. Instructions will be provided when you order your card.
3. You can then use your card to pay for shopping!
