Introduction

dB Attenuation Ltd and dB Consultation Ltd is committed to conducting our business in a way that contributes to environmental improvement and sustainable development and will discharge our responsibilities by the implementation, management, and audit of the following policy. To support the business in achieving the goals, dB Attenuation Limited have developed and implemented an independently certified environmental Management System complying with the requirements of ISO 14001:2015.

Policy

dB Attenuation Ltd and dB Consultation Ltd are regional businesses whose principal activities include General Acoustic Surveying, Noise Impact Surveys and the design, Manufacture and installation of Acoustic enclosures, screens, and doors.

We recognize that our operations can have significant implications regarding the environment. Therefore, we employ strict compliance with good practice, codes of practice and legislation. The efficient use of energy, materials, and other resources regarding recycling and the use of consumable items is monitored. The organization of our operations aims to minimize any environmental impact and the effects of noise, dust, disturbance, and inconvenience. The establishment and support of management, structure, and procedures, which ensure that environmental impact of all our activities, is evaluated and dealt with properly. The measurement of our environmental key areas within the context of continuous improvement and a responsible learning culture. Regular review of this policy, our performance, and objectives to ensure that we are doing all we can to achieve best practice.

Environmental Objectives

As a responsible contractor and employer, we wish to use our influence to protect the environment in which we live and work. We will strive to:

- Manage our resources effectively, reducing our impact upon the environment and preventing any incidence of pollution.
- Use our expertise and experience to effect environmentally friendly solutions in both the electrical design and installation that we are involved with.
- Work with our clients, subcontractors, suppliers, and staff to improve overall environmental performance.
