Countless seekers have attained Self Realisation and are experiencing True Happiness. You can too!

How is it unique?

- Attain Self Realisation without any effort
- No need to perform rituals, meditation, or spiritual practices
- No need to change your current religion or guru
- No renunciation of any kind is required

How does Akram Vignan work?

Akram Vignan introduces us to two stages of liberation.

- The first stage of liberation is attained when you experience a sense of freedom from unhappiness in this very life - experience the Bliss of the Self
- The second stage of liberation is attained when all karmas are completely exhausted and you become free from the cycle of birth and death - ultimate liberation
