Depicta

CONTENTS

Each page has one letter of the alphabet written on it.
The learner traces over that letter by starting at the dot
and then trying to stay in the middle of the letter.

The learner then repeats the letter by completing the line
and the rest of the page.

The little dot indicates where the learner must start
writing that letter. The last row can be used for
drawing or pasting pictures beginning with that letter.

The letters are written in the following sequence:
