NOTES TO THE ACCOUNTS
FOR THE 152 DAY PERIOD ENDED 31/03/2016

1. ACCOUNTING POLICIES

1a. Basis Of Accounting

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

The company's balance sheet at 31 March 2016 shows a net liability. However, the directors have confirmed their continuing support of the company and will continue to provide security for the company's liabilities for the foreseeable future. As a result of this these financial statements have been prepared on a going concern basis.

1b. Taxation

Corporation tax payable is provided on taxable profits at the current rates.

Provision is made for deferred taxation in so far as a liability or asset has arisen as a result of transactions that had occurred by the balance sheet date and have given rise to an obligation to pay more tax in the future, or the right to pay less tax in the future. An asset has not been recognised to the extent that the transfer of economic benefits in the future is uncertain. Deferred tax assets and liabilities recognised have not been discounted.

1c. Foreign Currency

Transactions in foreign currency are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the exchange rate ruling at that date. Foreign exchange gains and losses are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

1d. Turnover

Turnover represents the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts.
