Notes to the Abbreviated Accounts for the Year Ended 31st December 2007

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007)

Turnover

Turnover represents commissions earned on life and pension policies and investment arrangements completed during the year, where the company is entitled absolutely to the commission. Where policies are arranged on indemnity terms, commission is credited to the profit and loss account only after making due provision for commission which could be recoverable by insurance companies in the event that policies are cancelled in the future.

Turnover is attributable to one continuing activity, that of insurance and investment advisors.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Fixtures and fittings 15%
Motor vehicles 25%
Computer equipment 25%

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.
