Statement of directors' responsibilities in respect of the Directors' Report and the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Audit Exemption Statement

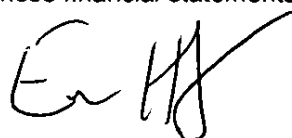

For the year ending 31 December 2012 the company was entitled to exemption from audit under Section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit of its accounts for the year in question in accordance with Section 476.

The directors acknowledge their responsibilities for continuing with the requirements of the Act with respect to accounting records and the preparation of accounts.

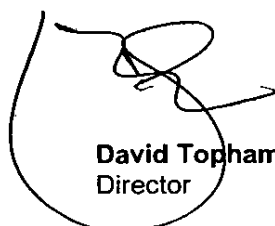

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime

These financial statements were approved by the board of directors and were signed on its behalf by:

Notes
(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

The financial statements have been prepared on the going concern basis which the directors believe to be appropriate for the following reasons. The company finances its day to day working capital requirements through a combination of funds advanced to the company by its shareholders and cash balances.

The nature of the company's trade is such that the working capital requirements of the company are completely at the discretion of the company's directors and the directors are confident that the company will not incur any working capital liabilities unless the funding to meet those liabilities has already been obtained from the shareholders or an alternative source.

Based upon the undertaking outlined above, and after making appropriate enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the directors continue to adopt the going concern basis in preparing the annual financial statements.

Under Financial Reporting Standard 1, the company is exempt from the requirement to prepare a cash flow statement on the grounds of its size.

Investments

Investments are accounted for at cost, less provision for permanent diminution in value.

Stocks

Development work in progress is carried at cost plus attributable overheads or net realisable value if lower.

Taxation

The charge for taxation is based on the loss for the year and takes into account taxation deferred or accelerated because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised, without discounting in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Factors affecting the tax charge for the current year

The current tax charge for the year is lower than (2011: lower than) the standard rate of corporation tax in the UK 24.5% (2011: 26.5%). The differences are explained below:

	2012	2011
	£	£
Current tax reconciliation		
Loss on ordinary activities before tax	(17,716)	(62,791)
Current tax at 24.5% (2011: 26.5%)	<u>(4,340)</u>	<u>(16,640)</u>

Losses carried forward	4,340	16,640
Total current tax charge	<u> </u>	<u> </u>
	<u> </u>	<u> </u>

Tax losses available for off-set against future taxable profits of the company have not been recognised as deferred tax assets due to uncertainty over the timing of their recoverability.

Notes (continued)

A reduction in the UK corporation tax rate from 26% to 25% (effective from 1 April 2012) was substantively enacted on 5 July 2011, and further reductions to 24% (effective from 1 April 2012) and 23% (effective from 1 April 2013) were substantively enacted on 26 March 2012 and 3 July 2012 respectively. This will reduce the company's future current tax charge accordingly.

The March 2013 Budget announced that the rate will further reduce to 20% by 2015 in addition to the planned reduction to 21% by 2014 previously announced in the December 2012 Autumn Statement. It has not yet been possible to quantify the full anticipated effect of the announced further 3% rate reduction, although this will further reduce the company's future current tax charge accordingly.
