The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention as modified by the revaluation of The financial statements have been prepared under the historical cost convention in accordance with applicable United Kingdom Accounting Standards (United Kingdom Accepted Accounting Policies) and the Limited Liability Partnership Statement of Recommended Practice, March 2006, which have been applied consistently (except as otherwise stated) in accordance with applicable accounting standards and the requirements of the Statement of Recommended Practice "Accounting by Limited Liability Partnerships"

1.2 Turnover

Turnover represents income received by way of finance lease charges Turnover is recognised in the period once the right to the income is earned

1.3 Recognition of Capital

The financial statements have been prepared in accordance with the requirements of FRS 25 as applied to limited liability partnerships by the applicable SORP Since the profits of the limited liability partnership are automatically distributed, FRS 25 requires members' capital to be disclosed as a liability, rather than equity It is for this reason only that the members' capital has been presented as a liability Under the terms of the Partnership Deed, there is no entitlement for members to draw out, or receive back at any time while they are members of the limited liability partnership, the amounts contributed by them as capital

1.4 Amounts recoverable on contracts

Once a film has been leased to the producer, the value attributable to the lease is included in the balance sheet as an amount recoverable on contract The amount of that attributable value is the net present value of the minimum lease payments under the contract Each year the net present value is recomputed and the reduction in value of the lease is set off against the rental income and treated as a recovery of the leasing debt This computation is carried out on a consistent basis year on year

1.5 Taxation

The taxation payable on the partnership profits is the personal liability of the members during the period and consequently neither taxation nor related deferred taxation are accounted for in the financial statements Amounts retained for tax are treated in the same way as other profits of the partnership and are included in "Members' interests" or in "Loans and other debts due to members" depending on whether or not division of profit has occurred

1.6 Capital Contributions

Where capital contributions by partners are unpaid at the balance sheet date, but a binding commitment to contribute that capital has been given by the partner, the capital contribution is recognised as such, and the amount unpaid is shown as a debtor
