THE DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2005

FINANCIAL INSTRUMENTS

The company is exposed to financial risk through its financial assets and liabilities. The key financial risk is that the proceeds from financial assets are not sufficient to fund the obligations arising from liabilities as they fall due. The most important components of financial risk are interest rate risk, currency risk, credit risk, liquidity risk, cash flow risk and price risk. Due to the nature of the company's business and the assets and liabilities contained within the company's balance sheet the only financial risks the directors consider relevant are credit risk and liquidity risk. These risks are mitigated by the nature of the debtor balances owed, with these due from other group companies who are able to repay these if required.

AUDITORS

Elective resolutions to dispense with holding annual general meetings, the laying of financial statements before the company in general meeting and the appointment of auditors annually are currently in force. The auditors, Deloitte & Touche LLP, will therefore be deemed to have been reappointed at the end of the period of 28 days, beginning the day on which copies of this report and financial statements are sent to members unless a resolution is passed under section 393 of the Companies Act 1985 to the effect that their appointment be brought to an end.
