Strategic Report

The directors present their strategic report on the Company for the year ended 31 December 2014.

Review of the business

The Company is a wholly-owned subsidiary of International Group Limited and operates as part of International Group Limited's property division.

The Company's principal activities are property trading and development in the UK, which are principally undertaken through its joint venture company Maplecross Properties Limited. The Directors are not, at the date of this report, aware of any likely major changes in the Company's activities in the forthcoming year.

Results and performance

As shown in the Company's profit and loss account on page 7, the Company reported a loss of £10,000 (2013: loss of £20,000) for the year.

The balance sheet on page 8 of the financial statements shows the Company's financial position at the year end.

Key performance indicators

International Group Limited manages its operations on a divisional basis. For this reason, the Company's directors believe that further key performance indicators (other than profit after tax stated above) for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the property division of International Group Limited, which includes the Company, is discussed in International Group Limited's Annual Report which does not form part of this Report.

Principal risks and uncertainties

Property price volatility and restricted credit facilities in the market from banks for property development would restrict the Company's business. To manage these risks, the Company ensures that it operates in areas that are less exposed to these risks than the general property market.

Future developments

The Company is seeking new property development opportunities.

Statement of directors' responsibilities in respect of the Strategic Report, Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

Notwithstanding the Company's net current liabilities of £3,772,000 (2013: £3,662,000), the financial statements have been prepared on a going concern basis. The ultimate parent company has confirmed that it will continue to support the Company. The ultimate parent company has itself obtained continuing financial support from subsidiary companies to enable the ultimate parent company to trade as a going concern.

On the strength of the assurance of continued support from the ultimate parent company, the financial statements have been prepared on the basis that the Company will be able to continue to trade as a going concern. As with any Company placing reliance on other group entities for financial support, the Directors acknowledge that there can be no certainty that this support will continue although at the date of approval of these financial statements, they have no reason to believe that it will not do so.

The Company is exempt by virtue of s400 of the Companies Act 2006 from the requirements to prepare consolidated financial statements as it is a wholly owned subsidiary undertaking of International Group Limited, a Company registered in England and Wales. The financial statements present information about the Company as an individual undertaking and not about its group.

Under Financial Reporting Standard 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

As the Company is a wholly owned subsidiary of International Group Limited, the Company has taken advantage of the exemption contained in Financial Reporting Standard 8 and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties). The consolidated financial statements of International Group Limited, within which this Company is included, can be obtained from the address given in note 14.

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the contracted rate or the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by Financial Reporting Standard 19.

Investments

Investments in group undertakings are stated at cost.

Turnover

Turnover represents the amount (excluding value added tax) derived from property trading and development to customers. It is recognised as performed.

Notes *(continued)*

2 Profit on ordinary activities before taxation

Auditor's remuneration of £3,000 (2013: £3,000) has been borne by a fellow subsidiary undertaking.

3 Remuneration of directors

None of the directors received emoluments for their services to the Company during the year (2013: £nil).

Details of the amounts paid to the directors by International Group Limited can be found in the financial statements of that Company. These can be obtained from the address in note 14.

A reduction in the UK corporation tax rate from 24% to 23% (effective 1 April 2013) was substantively enacted on 3 July 2012. Further reductions to 21% (effective from 1 April 2014) and 20% (effective from 1 April 2015) were substantively enacted on 2 July 2013. In the Budget on 8 July 2015, the Chancellor announced additional planned reductions to 18% by 2020. This will reduce the company's future current tax charge accordingly. The deferred tax asset at 31 December 2014 has been calculated based on the rate of 20% substantively enacted at the balance sheet date.

9 Deferred tax

A deferred tax asset of £284,000 (2013: £282,000) has arisen. The directors do not feel that it is appropriate to recognise this deferred tax asset in the light of current trading conditions.

The elements of deferred taxation are as follows:

	2014 £000	2013 £000
Tax losses	284	282
Undiscounted deferred tax asset	<u>284</u>	<u>282</u>

It has not yet been possible to quantify the full anticipated effect of the announced rate reduction, although this will further reduce the company's future current tax charge and reduce the company's deferred tax asset accordingly.
