Notes to the Abbreviated Accounts
for the year ended 31 October 2008

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

Turnover

Turnover represents the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts, all of which relate to the company's principal activities carried out wholly in the U.K.

Tangible fixed assets

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives. Any impairment in value is charged to the profit and loss account.

Leasehold improvements	-	10% on cost
Plant and machinery	-	20% on cost
Fixtures and fittings	-	20% on cost
Office equipment	-	20% on cost
Motor vehicles	-	25% on cost

Stocks

Stock is valued at the lower of cost and net realisable value.

Deferred tax

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes, except to the extent that a liability to taxation is unlikely to crystallise.

Hire purchase and leasing commitments

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding and is charged to the profit and loss account over the period of the lease.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme, the assets of which are held separately from those of the company.

The pension costs charged against profits represent the amount of the contributions payable to the personal pension schemes of certain employees, in respect of the accounting period.
