## **Statement of Directors' responsibilities**

Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the company's state of affairs at the end of the year and profit or loss for the year then ended. In preparing those financial statements, the Directors are required to:

- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.
