Financial risk management

The Company's objective regarding financial risk management is to keep exposure of price risk, credit risk, liquidity risk and cash flow risk to a minimum. Many of the Company's balances are with other members of the Inspicio Sàrl group, and assessments are made by management as to the recoverability of these balances in the overall context of the group. There is no group policy to hedge against interest rate movements on intercompany balances.

- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.
