NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2010

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the fair value of services provided under contracts with customers to the extent that there is a right to consideration. Where a service is incomplete at the year end, turnover represents the value of the service provided to that date.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Fixtures, fittings and equipment - 25% straight line

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

Deferred taxation

Provision is made for taxation deferred on the incremental liability approach in respect of all timing differences between the incidence of income and expenditure for taxation and accounts purposes that have originated but not reversed at the balance sheet date. Provision is made for future taxation on gains on revalued assets only where a binding commitment to dispose of the asset exists at the year end in respect of which the gain or loss has been recognised

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities
