Statement of accounting policies

The following accounting policies have been applied consistently in the company's financial statements

Basis of preparation

The financial statements have been prepared in accordance with applicable UK accounting standards, the Companies Act 2006 and under the historical cost accounting rules

The ultimate parent company, Priory Group No 1 Limited, has confirmed that it will continue to provide financial support to the company for the foreseeable future and for at least 12 months from the date of approval of these financial statements. Accordingly the financial statements have been prepared on the going concern basis

The company is exempt by virtue of section 400 of the Companies Act 2006 from the requirement to prepare group financial statements on the grounds that it is included in the consolidated financial statements of a parent undertaking. These financial statements present information about the company as an individual undertaking and not about its group

Under Financial Reporting Standard 1 'Cash flow statements' (revised 1996) the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own publicly available consolidated financial statements

As the company is a wholly owned subsidiary of Priory Group No 1 Limited, the company has taken advantage of the exemption contained in Financial Reporting Standard 8 'Related party disclosures' and has therefore not disclosed transactions or balances with entities which form part of the group

Investments

Investments in subsidiaries are stated at cost less provision for any impairment in value

Deferred taxation

The charge for taxation is based on the profit for the period and takes into account taxation deferred

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date

A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured in a non-discounted basis

Priory (Stoke 1) Limited

1 Loss on ordinary activities before taxation

The remuneration of the auditors of £500 (2011 £500) was borne by another group undertaking

2 Remuneration of directors

The costs relating to the directors' services have been borne by Priory Central Services Limited, a fellow group company. No amounts have been recharged to the company in respect of the directors' services and the directors do not believe that it is practical to allocate these costs between group companies.

The standard rate of tax for the year, based on the UK standard rate of corporation tax is 24.49% (2011 26.49%). The actual tax credit for the year is higher (2011 higher) than the standard rate for the reasons set out in the following reconciliation

The standard rate of corporation tax in the UK changed from 26% to 24% with effect from 1 April 2012. A further reduction in this corporation tax rate effective on 1 April 2013 from 24% to 23% was substantively enacted for the purposes of FRS 16 on 3 July 2012.
