Notes to the Abbreviated Accounts for the period ended 31 July 2015**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents the total invoice value, excluding value added tax, of sales made during the period and derives from the provision of goods falling within the company's ordinary activities.

Tangible assets depreciation policy

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment - 15% reducing balance

Other accounting policies

Deferred taxation:

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have been originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax that would apply when the differences are expected to reverse, based on the tax rates and laws that have been enacted by the balance sheet date.
