Roding Valley Farming Limited

Notes to the abbreviated financial statements for the year ended 31 March 2016

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made and services provided during the year and derives from the provision of goods and services falling within the company's ordinary activities.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery	-	15% - 20% reducing balance
Fixtures, fittings and equipment	-	25% reducing balance
Motor vehicles	-	20% reducing balance

1.4. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Rentals payable under operating leases are charged to the profit and loss account in accordance to the period in which the payment relates.

1.5. Stock

Stock is valued at the lower of cost and net realisable value.

1.6. Going concern

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future and agree to continue their support to the company. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.
