1 ACCOUNTING POLICIES

Basis of preparing the financial statements
The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same accounts.

Accounting convention
The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover
Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Short Leasehold
Straight line over the period of the Lease.

Plant & Machinery
Straight line at rates ranging from 12.5% to 25% per annum.

Stocks
Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments
Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Pension costs
Contributions to the company's defined benefit scheme are charged to the Profit & Loss Account as they are incurred. Actuarial surpluses or deficits are not amortised.

On 1st September 2008 the defined benefit scheme ceased and a recovery plan to cover the benefits which had accrued was implemented, as detailed in note 15.

Contributions to defined contribution schemes are charged to the Profit & Loss Account in the year in which they becomes payable.
