**Notes to the Abbreviated Accounts
for the Year Ended 31 March 2008**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention modified to include the revaluation of investment properties and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

Turnover

Turnover represents rents and service charges receivable, excluding value added tax.

Investment property

Investment properties are revalued annually to open market value and no depreciation is provided. The directors consider that this accounting policy results in the financial statements giving a true and fair view. The effect of this departure from the Companies Act 1985 has not been quantified because it is impracticable and, in the opinion of the directors, would be misleading.

The aggregate surplus or deficit arising on revaluation is transferred to the revaluation reserve except where a deficit is deemed to represent a permanent diminution in value, in which case it is charged to the profit and loss account.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.
