Directors' report

The Directors of FCC Wrexham PFI Holdings Limited (the "Company") present their annual report and the audited financial statements for the year ended 31 December 2012

Name change

On 11 May 2012, the Company changed its name from WRG Wrexham PFI Holdings Limited to FCC Wrexham PFI Holdings Limited. The name change was part of a UK business re-branding project that also saw the Company's parent company, WRG PFI Holdings Limited change its name to FCC PFI Holdings Limited, and a fellow UK-domiciled subsidiary undertaking of FCC, Waste Recycling Group Limited, change its name to FCC Environment Limited ("FCC E UK") on the same date.

Principal activity and developments in the year

FCC E UK manages its operations on a divisional basis and information regarding key performance indicators is included within the FCC E UK annual report. For this reason, the Company's Directors believe that the disclosure of further key performance indicators for the Company is not appropriate for an understanding of the development, performance or position of the business.

Directors' indemnities

During the financial year, qualifying third party indemnity provisions for the benefit of all Directors of the Company were in force and continue to be in force at the date of this report. Such provisions were made by FCC.

Going concern

Having made appropriate enquiries, the Directors consider it reasonable to assume that the Company has adequate resources to continue for the foreseeable future, and for this reason, have continued to adopt the going concern basis in preparing the accounts. Full details of the going concern considerations can be found in note 1 of the notes to the financial statements.

Financial risk management

The Company balance sheet contains a loan receivable from a subsidiary undertaking, FCC Wrexham PFI Limited and a loan payable to its parent undertaking, FCC PFI Holdings Limited. These loans bear interest at equal rates and run for the same term. The Company does not therefore bear significant credit, liquidity risk or interest rate risk.

Disclosure of information to the auditor

Notes to the financial statements Year ended 31 December 2012

1. Accounting policies

These financial statements are prepared in accordance with applicable United Kingdom accounting standards

The following accounting policies have been applied consistently in both the current and previous financial year in dealing with items which are considered material in relation to the financial statements

Accounting convention

The financial statements are prepared under the historical cost convention

Going concern

Having made appropriate enquiries, the Directors consider it reasonable to assume that the Company has adequate resources to continue for the foreseeable future, and for this reason, have continued to adopt the going concern basis in preparing the financial statements

Cash flow exemption

The Company has taken advantage of the exemption, conferred by Financial Reporting Standard 1 (Revised) from presenting a cash flow statement as it is a wholly owned subsidiary of a group which has prepared a consolidated cash flow statement

Consolidation

The Company has claimed exemption from the preparation of consolidated financial statements under section 400 of the Companies Act 2006 as it is a subsidiary of a group which has prepared consolidated financial statements. Accordingly, these financial statements present information about the Company and not the Group

Investments

Investments are stated at cost less provision for any impairment in value

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis
